

# Agenda - 11/14

## Discuss project scope

- Discuss why we've chosen to keep the app scoped down to the informal tournament level
- Discuss why we've chosen to keep it MIT specific.

## Revisit updated data model

- Determine if questions from last meeting are clarified in new model (specifically with match dependencies)
- Discuss schema implementation
  - Introduce idea of outcome metadata, and see if it sufficiently allows us to generalize data-keeping among various different sports

## MVP Implementation

- Discuss current plan for MVP
  - Get rid of any unnecessary or extraneous features
  - Make sure current plan embodies the main purpose of our app
